About this list of products :

- Are, in view of the certificates communicated by our various suppliers, neither Genetically Modified Organisms (GMOs), nor products obtained from GMOs or by GMOs, within the meaning of Directive 2001/18/EC. They are not foodstuffs or ingredients obtained entirely or partially from genetically modified substrates covered by Regulation (EC) No 1830/2003 ; this therefore indicates the absence of cloning.
- Do not result from ionizing treatment nor of irradiations.
- Do not result from the use of the nanotechnologies except SILISOL and SILISOL FL.
- Do not contain nor are elaborated with substrate containing sewage sludge, with petrochemical substrate or with sulfite waste liquor.
